

	<p align="center">SAFETY DATA SHEET</p> <p align="center">Not regulated under (EC) 1907/2006 and (EC) 830/2015</p> <p align="center">Cold pressed grape oil</p>	Release date: Revision date: Page:	03/05/2017 - 2 / 6
--	---	--	------------------------------

SECTION 3: Composition/information on ingredients

3.1 Substances

Folder identifier	Concentration / range concentration	Index number CAS number EC number	Classification 1272/2008
Grape oil	100%	- 8024-22-4 617-024-8	Not classified as dangerous.

The full wording of the H-phrases is given in chapter 16.

SECTION 4: First aid measures

4.1 Description of first aid

In case of health problems or in doubt, seek medical treatment and provide the doctor with the information from this safety data sheet.

In case of inhalation: Provide fresh air supply. In case of difficulties, seek medical help.

In case of skin contact: Rinse the affected area with water and soap and treat with a soothing cream. If irritation persists, seek medical attention.

In case of eye contact: Wash with plenty of water (min. 15 minutes). Seek medical attention if symptoms of exposure persist (e.g. burning in the eye).

If ingested: The oil is used in the food industry, no information is known about the danger of ingestion.

4.2 Most important symptoms and effects, both acute and delayed

May cause eye and skin irritation.

4.3 Instructions for immediate medical attention and special treatment

Special means are not intended. Treatment is symptomatic.

SECTION 5: Firefighting measures

5.1 Fire extinguishers

Suitable extinguishing agents: Dry chemical powder, CO₂, water spray (mist).

Unsuitable extinguishing media: Water jet.

5.2 Special hazards arising from the substance or mixture

In case of fire, dangerous gases and vapors (carbon dioxide and carbon monoxide) are produced.

5.3 Instructions for firefighters

Use protective equipment depending on the nature of the fire. Self-contained breathing apparatus.

SECTION 6: Accidental release measures

6.1 Personal protection measures, protective equipment and emergency procedures

Use protective equipment (Chapter 8).

6.2 Environmental protection measures

Prevent entry into drains. In the event of a spill into a river, water reservoir, or sewer, immediately notify the relevant authorities according to the local regulations of the organization's emergency plan.

6.3 Methods and material for containment and cleaning up

To dispose of the spilled liquid, use an inert sorbent, which after absorbing the liquid, place it in suitable, pre-marked containers and dispose of it in accordance with waste regulations. Use suitable detergents to wash the surfaces.

6.4 Reference to Other Sections

See section 7 and 8.

	<p align="center">SAFETY DATA SHEET</p> <p align="center">Not regulated under (EC) 1907/2006 and (EC) 830/2015</p> <p align="center">Cold pressed grape oil</p>	Release date: Revision date: Page:	03/05/2017 - 3 / 6
--	---	--	------------------------------

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Do not eat, drink or smoke. Avoid contact with skin, eyes. Use suitable personal protective equipment listed in section 8. Respect work and hygiene regulations for working with chemical substances. Do not inhale vapors and aerosols.

7.2 Conditions for safe storage of substances and mixtures, including incompatible substances and mixtures

Store in a dry, cool, well-ventilated place away from sources of ignition (away from substances with an oxidizing effect and acids, away from heat sources and away from sources of ignition and direct sunlight). Store at around 21°C.

7.3 Specific end / specific end uses

Food and cosmetic products.

SECTION 8: Exposure controls / personal protective equipment

8.1 Control parameters

Exposure limits according to Government Regulation No. 361/2007 Coll., as amended:

substance (ingredients):	TIME	PEL mg/m3 NPK-P	mg/m3 Name of	Note
Not listed				
DNELs not listed				
PNEC not listed				

8.2 Limiting Exposure

Technical measures:

Local ventilation. Wash your hands with soap and water before a work break or at the end of a working day. Do not eat, drink or smoke while working. Avoid contact with skin and eyes.

Limiting worker exposure

Respiratory protection: Eye	It is not necessary.
protection:	Suitable safety glasses.
Hand protection:	Suitable protective gloves.
Skin protection:	Suitable protective work clothing and footwear.

Limiting environmental exposure

Prevent the release of the substance into sewers, surface and ground water and into the environment.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

	Light yellow viscous liquid
	Characteristic.
Appearance: Odor: Odor	Information not available
threshold: pH (at	Information not available
20°C): Melting point / Freezing	-12
point (°C): Initial boiling point and boiling range (°C):	> 230
Flash point (°C):	> 200
Evaporation rate	Information not available
Flammability:	Non-flammable liquid.
Limits explosive or flammability: upper limit (% by volume):	Information not available
lower limit (% vol.):	Information not available
Vapor pressure	Information not available
Vapor density	Information not available
Relative density	Information not available
Solubility	Insoluble in water. Soluble in diethyl ether. Partially soluble in n-octanol.
Partition coefficient: n-octanol / water:	The product is soluble in oils Log (oil/water) = 7
Auto-ignition temperature (°C):	Information not available

	<p align="center">SAFETY DATA SHEET</p> <p align="center">Not regulated under (EC) 1907/2006 and (EC) 830/2015</p> <p align="center">Cold pressed grape oil</p>	Release date: Revision date: Page:	03/05/2017 - 4 / 6
--	---	--	------------------------------

	Decomposition temperature (°C): Viscosity: Explosive properties: Oxidizing	Not determined. Information not available Not classified as explosive. Not classified as oxidizing.
9.2	properties: Additional information Not given.	

SECTION 10: Stability and Reactivity 10.1	
Reactivity	It is not reactive under normal conditions.
10.2 Chemical stability	Stable at normal temperatures and pressures and under recommended conditions of storage and use.
10.3 Possibility of hazardous reactions	None under normal conditions.
10.4 Conditions to Avoid	Protect from heat, sunlight, air (oxidizes easily) and incompatible materials.
10.5 Incompatible materials	Oxidizing agents.
10.6 Hazardous decomposition products	Hazardous gases such as carbon dioxide and carbon monoxide can be produced during combustion.

SECTION 11: Toxicological information 11.1	
Information on toxicological effects	Acute toxicity
	Based on available
	data, the classification criteria are not met. Skin corrosion/irritation Based on
	available data, the classification
	criteria are not met.
	Serious eye damage / eye irritation Based
	on available data, the classification criteria are not met.
	Respiratory sensitization / skin sensitization Based on
	available data, the classification criteria are not met.
	Germ cell mutagenicity Based on available
	data, the classification criteria are not met.
	Carcinogenicity
	Based on available data, the classification criteria are not met.
	Reproductive toxicity Based
	on available data, the classification criteria are not met.
	Specific target organ toxicity - single exposure Based on available data,
	the classification criteria are not met.
	Specific target organ toxicity - repeated exposure Based on available
	data, the classification criteria are not met.
	Aspiration hazard Based on
	available data, the classification criteria are not met.

SECTION 12: Ecological information	
12.1 Toxicity	
	Fish
	Information not available. Algae
	Information not available.
	Daphnia
	Information not available.
	Bacteria
	No information available.
12.2 Persistence and degradability	No information available.

	<p align="center">SAFETY DATA SHEET</p> <p align="center">Not regulated under (EC) 1907/2006 and (EC) 830/2015</p> <p align="center">Cold pressed grape oil</p>	Release date: Revision date: Page:	03/05/2017 - 5 / 6
--	---	--	------------------------------

12.3 Bioaccumulative potential	Information not available.
12.4 Mobility in soil	Information not available.
12.5 Results of PBT and vPvB assessment	The substance does not have PBT and vPvB properties.
12.6 Other Adverse Effects	Information not available.

SECTION 13: Disposal considerations	
13.1 Waste management methods	<p>a) Suitable methods for removing the mixture or product and contaminated packaging:</p> <p>Unconsumed residues and the substance caught in the event of a leak are disposed of as waste in accordance with the Waste Act. Recommended method: incineration, must always be carried out in accordance with environmental protection requirements and waste disposal laws.</p> <p>Residues of the substance, as well as rinsing water, must not be discharged into the soil, public sewers or near water sources and watercourses.</p> <p><i>Methods of disposal of contaminated packaging:</i></p> <p><i>Dispose of empty packaging as residual product.</i></p> <p>b) Physical/chemical properties that may affect the way waste is managed</p> <p>They are not listed.</p> <p>c) Prevention of waste removal through sewerage</p> <p>Not specified.</p> <p>d) Special safety measures for recommended waste management</p> <p>Not specified.</p>

SECTION 14: Transport information			
14.1	It is not a dangerous goods for transport		
	UN number: -		
14.2 Proper name (UN) for the shipment	Land transport ADR		
	Rail transport RID		
	Sea transport IMDG:		
	Air Transport ICAO/IATA:-		
14.3 Transport hazard class(es)	Land transport ADR Rail transport RID		Sea transport IMDG:
			ICAO/IATA air transport:
	Classification		
	Land transport ADR Rail transport RID		
14.4 Packaging group	Land transport ADR Rail transport RID		Sea transport IMDG:
			ICAO/IATA air transport:
	Hazard identification number (Kemler)		
	Ground transport ADR		
	Safety sign		
	Land transport ADR Rail transport RID		Sea transport IMDG:
			ICAO/IATA air transport:
	Note		
Land transport ADR Rail transport RID		Sea transport IMDG:	
		ICAO/IATA air transport:	
		Marine pollutant: no	PAO:-
		EmS:-	CAO:-
14.5 Environmental hazard			
It is not a substance hazardous to the environment during transport			

	<p align="center">SAFETY DATA SHEET</p> <p align="center">Not regulated under (EC) 1907/2006 and (EC) 830/2015</p> <p align="center">Cold pressed grape oil</p>	Release date: Revision date: Page:	03/05/2017 - 6 / 6
--	---	--	------------------------------

14.6	Special security measures for users
	They are not.
14.7	Bulk transport according to Convention II MARPOL 73/78 and the IBC regulation
	It is not transported.

SECTION 15: Regulatory Information	
15.1	Safety, health and environmental regulations / substance-specific legislation or mixtures
	EC Regulation 1907/2006 (REACH) Regulation EC 830/2015 Regulation EC 1272/2008 (CLP) Valid wording of the Waste Act 185/2001 Coll., + related decrees. Valid wording of the Packaging Act.
15.2	Chemical safety assessment
	It was not done.

SECTION 16: Further information			
a)	Changes made to the safety data sheet as part of the revision		
	revision	03/05/2017	
	Translation and editing of a foreign document		
	b) Key or legend to abbreviations		
	TODAY	Derived No Effect Level (derived concentration of a substance at which no adverse effects occur)	
	PNEC	Predicted No Effect Concentration	
	PEL	permissible long-term exposure limit (8 hours)	
	c) NPK-P	maximum permissible concentration, short-term limit	
	CLP	Regulation EC 1272/2008	
	REACH	EC regulation 1907/2006	
PBT	the substance is persistent, bioaccumulating and toxic at the same time		
	vPvB	substance highly persistent and highly bioaccumulative	
	LD50	Lethal (fatal) dose that kills 50% of test organisms	
	LC50	Lethal (deadly) concentration that kills 50% of test organisms	
	Important literature references and data sources		
	The information provided here is based on the best of our knowledge and current legislation. The safety data sheet was further processed on the basis of the original safety data sheet provided by the manufacturer.		
	d) List of relevant hazard statements and/or instructions for safe handling		
	-	-	
	e)	Training guidelines	
		Regular training for handling chemicals.	
f)	Additional information		
	The information in this safety data sheet is believed to be correct and complete to the best of our knowledge. It is made in good faith but without warranty. Various factors can influence properties in specific conditions. It is the responsibility of the user of the product to assess the accuracy of the information for the particular application.
